Fail from the startlah RMK12 ni. (Sila refer Table disertakan amik dari RMK12 book).

School leavers every year je estimated dah 500,000 orang. RMK12 target kerja pertahun hanya 200,000 pekerjaan. Yang lagi 300,000 nak kerja apa? Makan pasir?

Lagi satu, dalam RMK12 planning, our population yg bekerja tak sampai setengah iaitu 16 juta orang berbanding total population 35 juta orang (2025) iaitu hanya 46% dari population. Macamana nak jadi negara maju?

Fxxk lah planning RMK12 nih. Failure to plan properly is amounted to planning to fail.

Hangin aku bila baca RMK12 nih. Plan mcm budak2. Belanja juta2 tapi common sense pon tak boleh buat. Planning tapi tak realistik.

New generation dgn approach yg berlainan. Mereka dah Tak berfikirn macam Kita. Depa punya calculation very simple. Dapatan - modal= profit. Mereka Tak akan berfikir secara susah sbb depa hidup zaman informasi di hujung jari.

Nk sediakan perkerjaa utk semua mmng tk mampu nk buat ... Perniagaan mampu menyumbang 9/10 drpd kerja mkn gaji ... So selebihnya kena miaga cuma tk byk pilihan nk miaga apa keperluannya tetap ada dan bertambah selari dgn pertambahan populasi penduduk 😊
